

Pandanus Leaf coffins

The Pandanus leaf eco-coffins featured here are available as part a funeral you're arranging with Natural Endings. You can also buy these coffins or if you live out of our area for direct delivery to your chosen funeral service provider, or to your home. All coffins featured are appropriate for cremation and burial, and are available in a range of sizes.

Pandanus leaves are woven alongside rattan to create a striking bio-degradable coffin. Pandanus (wild pineapple) is an alternative to seagrass, when woven it is almost indistinguishable from seagrass.

They are certified by The Coffin, Casket and Shroud Association for quality and strength. Made in Indonesia in World Fair Trade Organisation accredited workshops, making a real difference to the lives of the local people.

Pandanus eco-coffins are made from the leaves of a prolific growing plant, a provider of a highly renewable and sustainable material. The dried leaves are being twisted into cord using traditional methods, then woven and coiled around a natural cane framework. Rattan is also woven into the coffins' design to create a striking lightweight contrast against the silvery colour of the Pandanus.
